

iScribe Dictation

Dictate via Telephone, Smart Phone, iScribe Direct, and PC Dictate

PRODUCT OVERVIEW

iScribe's Dictation offerings have been developed over the course of ten years serving the medical industry needs. iScribe Dictation options can be purchased fully integrated into iScribe's Complete Dictation, Workflow, and Publishing solution or as a stand-alone solution. As a stand-alone solution, it is typically purchased in "The Cloud" but can also be purchased as a server solution for installation on site.

"iScribe Direct is by far the most user-friendly program that I have used."

Lyle Burlingame, ETM3

DICTATION FEATURES

iScribe's Dictation offerings are administered via Web browser. iScribe's products and services can be customized to meet specific user requirements.

Features include:
